Professional Summary

Motivated and detail-oriented Engineering graduate with hands-on internship experience in Front-End Development and Process Analysis. Eager to leverage technical, analytical, and communication skills to contribute to innovative software development projects. Seeking a challenging entry-level role in a dynamic and growth-oriented organization.

Technical Skills:

- **Customer Relationship Management:** Client Communication, Query Resolution,
 - **Communication:** Active Listening, Professional Correspondence, Conflict Resolution
 - **Organizational Skills:** Record Keeping, Data Management, Logistics Coordination
 - **Languages Known:** English (Fluent), Telugu (Fluent)
-

Internships & Project Experience

Front End Developer (Intern)

Octad Soft, Hyderabad, India

February 2024 – April 2024

- Developed a personalized portfolio website using HTML, CSS, and JavaScript, increasing visibility to potential clients by 30% and reducing bounce rates by 40%.
- Implemented responsive design principles, improving user accessibility and engagement.
- Collaborated with cross-functional teams to gather requirements and translate them into functional specifications, ensuring project timelines and objectives were met.
- Received positive feedback from peers and stakeholders, contributing to new project opportunities.

Internet of Things (IoT) Intern
Coursera (Online)

February 2021 – June 2021

- Established and deployed IoT solutions that enhanced operational efficiency across various industries, demonstrating proficiency in system implementation and integration.
 - Analyzed and optimized data collection processes, resulting in a 25% increase in data accuracy and reliability for IoT applications.
 - Cooperated with cross-functional teams to design and execute IoT projects, reducing project delivery time through effective communication and resource management.
 - Created comprehensive documentation and training materials, reducing onboarding time by 15% for new team members.
-

Projects

Arduino-Based Bluetooth Controlled Car

July 2019 – November 2019

- Developed a Bluetooth-controlled robotic car, achieving improved responsiveness through optimized code and hardware configurations.
- Designed a mobile application for seamless control, reducing user input latency by 50%.
- Constructed a robust circuit using Arduino and Bluetooth modules, enhancing stability and control efficiency.
- Conducted thorough testing and validation, ensuring reliable signal transmission and operational accuracy.

Education

Bachelor of Technology in Electrical and Electronics Engineering

Lovely Professional University, Punjab, India

July 2018 – May 2022

- Percentage: 60.03%

Board of Intermediate Education (Mathematics, Physics, Chemistry)

Sri Gudibandi Somireddy Junior College, Guntur, India

June 2016 – April 2018

- Percentage: 86.2%
-

Certifications & Trainings

- Achieved participation in One India Event.
- Completed NOVOS Quiz Competition.
- Contributed to Cyber Space Initiative.
- Attended NGO Participation Certificate Program.
